Re: Cheyenne Company

To Whom it May Concern:

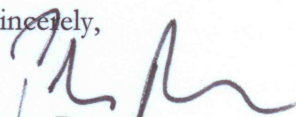

It is with pleasure that I act as a professional reference for Cheyenne Company.

During the value engineering phase of recently completed project we were looking for cost saving substitute for GFRC, and fortunately discovered Cheyenne Company and their product.

Their knowledgeable staff has provided assistance in resolving the details for incorporating their product into our project. The shop drawings were very detailed and accurate. The final product was precisely manufactured and delivered on time which helped with staying on schedule. The whole experience of working with Cheyenne Company was very positive. Given the opportunity we will do it again.

If you need any additional information, please don't hesitate to contact me.

Sincerely,

Peter Pennoyer
