3	116 3/8"	15'	2
4	116 1/2"	12'	2

## A BRIEF OVERVIEW OF THE GREENWICH SERIES.

Cheyenne's Greenwich Series offers a comprehensive range of turned baluster styles suited for every application. For painted applications, the Series is offered in PVC or Polyurethane with matching newel post assemblies built to your project specifications. The Series is also available in Molded Limestone with a range of distinctive textures and colors, another example of modern composites that outperform traditional heavier products.

- Replicate profiles for historically sensitive applications!
- Fully tested to meet IBC load ratings
- Radius and helical stair applications
- Standard baluster profiles available
- Shop drawings provided
